Cumulative editorial index

Including January 1975 through December 1975. Number preceding hyphen is month of issue; those following are page numbers. Asterisks indicate items appearing in departments. AUTOMATION is indexed in Applied Science & Technology Index and the Engineering Index, available in libraries generally. Microfilm copies are available from University Microfilms, 300 N. Zeeb Rd., Ann Arbor, Mich. 48106. Reprints of early issues are available from Johnson Reprint Corp., 111 Fifth Ave., New York, N.Y. 10003
